

State Legislature

Please record a video to answer the following questions:

1. Share with us the qualifications that make you a leading candidate for this office? Why are you running?
2. If endorsed by the Chandler Chamber, what does your engagement plan look like with the Chamber and Arizona businesses following the election?
3. What is most important to Arizona's economic future and what steps would you take to meet those needs?

Please answer the following questions in writing:

1. If endorsed by the Chandler Chamber, what does your engagement plan look like with the Chamber and Arizona businesses following the election?

A - My initial engagement plan consists of Monthly communication to the chambers of commerce that represent businesses in the district, both through written and hopefully visiting personally to give updates to the members. I will always have an open door especially for the chambers and businesses. Social Media and email updates are also in the plan. I am open for feedback for the chambers and businesses for additional or alternates forms.

2. Individual states compete globally for business development, attraction, and expansion. What are your plans to ensure Arizona continues to remain competitive not only in retaining its current businesses but in attracting new ones?

A - The Arizona economy in my opinion is the most important thing. When Arizona has a strong economy, the resources are available to address all the other issues facing the state. As a result, we need to be open to all forms of incentives to retain and recruit businesses, whether it be tax incentives, education improvements, entertainment opportunities and other issues that businesses and employees want in a community that they reside. We need to expand our workforce development plans to have skilled employees for those businesses that are already here and those that we recruit.

3. What measures do you support to improve and secure elections and voting access in Arizona?

A - First off, I want every Arizonan to have easy access to be able to vote, this not only a right, but a privilege and a civic duty. It is also incredibly important that Arizonans have confidence in the election system that they are secure and accurate. I support picture voter ID requirements, If the state needs to give a free picture ID, then we need to do that. I do believe that early voting is here to stay, tightening up the security of early mail in ballots I am in favor of, however I am still learning how this might be accomplished without limiting access to voting. I also am in favor of going to smaller precincts and precinct voting which I do believe will enhance access to voting because your are voting in your own neighborhood.
